Received letter from SK BE July 1949 saying SKobe had sue thing and would Hahn please send him radio plan and cipher he had arranged with Valemar. Hahn and Valdemar had two plans arranged based on 2 books, one which Valdemar took with him and another supposed to be easily acceptable there. Valdemar had possibly lost the former along with his crystals. Hahn gave BIS the former, to an Englishman (George Kilgour?) who visited him in Sweden. Also gave him some addresses in Kurzeme and Riga but not all. Skobe wrote later and said two men went, asked where Valdemar was or how he could be contacted to get money to him. Hahn did not know.
